

NATRC Region 3 Appreciation Award 2021

Hannah Clark

We are proud to nominate Hannah Clark for the NATRC Region 3 Appreciation Award. She is one of our young competitors who made all things NATRC a big part of her life. For a young woman starting her career, dealing with company mergers and related job insecurity, and financially pulling a life together after college, continuing to ride and compete is in itself a challenge. Throw in COVID, she's had more than enough to do to keep busy. Still, she and her stepfather managed the only Region 3 ride in 2019. She also became our newsletter, the Stirrup, editor and she maintains e-mail communications with all our members.

While she had (?) to move to Montana because her company left Colorado, and she is a very long drive from our existing rides, she is still a Region 3 member. We hope she hosts a local ride one day, giving us reason to drive North, and brings Montana into the fold.

We miss the joy she always showed competing with Dhara. It was infectious and encouraged our Novice riders to move up and refine their skills. We very much appreciate her continued support and wish for her, nothing but the best!
